

Indoor Clean Pole

We were the first to launch an indoor glass washing solution into the market in 2005. Nowadays, this systems has concurred the worldwide market and has won various innovation awards. Our Indoor Clean Pole, which can be build- up to 10 meter, offers the perfect solution for cleaning difficult and hard to reach areas, but also for regular glass. Throughout the years, we have developed some extra accessories, which resulted into a system even more diverse. Examples of applications can be: glass, natural stone floors, SS, mirrors, aluminum ceilings and any other smooth surface.

Specifications:

Indoor Clean Pole Trend Line:

- Length pole : 1500 mm
- Diameter pole : 35 mm
- Material : Carbon
- Weight : 480 gram

Indoor Clean pole Trend Line Belt:

- Material : Leather
- Length : 1300 mm
- Weight (total) : 1500 gram
-

Electric power supply:

Battery:

- Type : NiMh
- Voltage : 12 V
- Capacity : 3000 mAmp
- Connection : Fixed

Battery box:

- Material : PE

Charger:

- Voltage : 240volt AC
- Charge power : 14,4 V

Pump

- Voltage : 12 volt
- Pressure : 10 bar
